Specifications

NCHRP 350 TL-2

- > Speed: 70 kph
- > Length: 5.7m
- > Elements: 6
- > Weight: 39kg empty / 317kg filled
- > Volume 265 litres water/unit
- > Structural elements galvanised
- > Plastic components formulated for long term outdoor use

* Placement in 80 kph zones subject to site specific risk assessment noting that the product may only be used where high speed side impacts are unlikely, penetration behind or vaulting over the barrier has been managed and use of a redirecting impact attenuator is not feasible for reasons other than cost or convenience.
